The following assumptions are made as far as the ACC training at Hyderabad is concerned for the year 2010

1. Two courses shall run throughout the year using two labs:
2. Demand for ACC courses exist as the backlog number is: 185
3. The training backlog up to December 2009 needs to be covered up in 2010 as new recruitment in 2010 will create demands for 2011
4. CATC will cater to training of ab-initio courses
5. The courses will be continuous

The balance of ACC training until December 2009: 185

Expected training input planned for the year: 168

Expected output for the year: 144
