

# AAI develops Air Cargo Complex

## at Amritsar Airport

**The Airports Authority of India (AAI) has taken several commendable initiatives as regard to the development of Air Cargo Terminals, operated by it. Gp Captain DC Mehta, advisor (MR), AAI gives an update on the cargo operations at Amritsar Airport.**

**Ratan Kr Paul**

**A**irports Authority of India, the main stay of Indian Civil Aviation has been according due diligence to air cargo a vital ingredient which contributes immensely to the country's ever changing economic scenario and its growth.

In keeping with our objectives on cargo operations which are simple yet substantial: excellence, efficiency and service standards which are second to none in the world, we have established a cargo complex at the Golden Opportunity Airport, Amritsar. Here too, our aim has been to simplify air cargo movement by

using state-of-the-art technology and ensuring user-friendly environment.

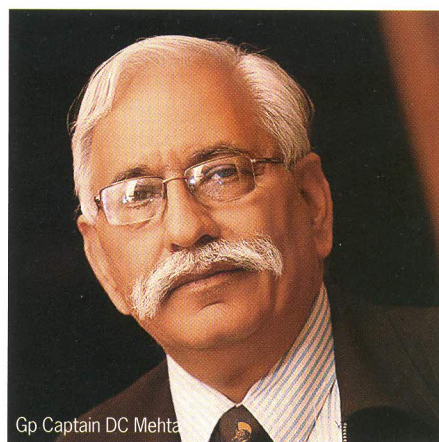

### Expertise in Handling Air Cargo Operations

AAI is a 'Reservoir' of expertise in not only providing consultancy in establishing air cargo complexes but also, in designing and managing air cargo operations – be it of international or domestic nature.

Our team has an experience of close to four decades of cargo operations and

has acquired the competence of creating integrated - modernised development of operational terminal of cargo facilities. AAI cargo is known in the industry for its commitment in providing the hi-value / tech goods / cargo movements respectively.

We have established a habit of excellence and confirming to the international standards of service. The bottom line is zero tolerance in mishandling of cargo. AAI having realised the importance of developing the Human Resources to keep pace with the ever changing technology has invested intensively on training in various courses like air cargo management system, DGR

Gp Captain DC Mehta

specialisation course which control the proper storage of hazardous cargo worldwide through trained executive team.
