

AIRPORTS AUTHORITY OF INDIA

PRESS RELEASE

For Immediate Release

Today 7th December 2011, Airports Authority of India, New Delhi

Modified Terminal Building put into operations at Coimbatore Airport today

Today the third phase of expansion & modification of terminal building of Coimbatore Airport has been put into operations. The facility has segregated International departure area having 25 check in counters and new Departure Conveyor belts for efficient baggage handling and better facilities to the passengers and airlines. The peak hour handling capacity of the terminal building is 350 arriving and 350 departing passengers at a time. The increased area of departure hall, i.e. 5962 sqm., will have 3 Conveyers, 2 Elevators, 2 Escalators & One Lift.

In addition to this a new tensile fabric canopy on city side for visitors and passengers, new extended car parking for 300 cars & miscellaneous facilities like new Baggage Make-up Area, A/C Plant, Substation, Pump House, Fire Fighting, and Security CCTV have been made available for the convenience of Airlines & Air Travellers at Coimbatore Airport.

The Expanded & modified terminal building at Coimbatore Airport has been completed at a total cost of Rs. 72 Crore.

Notes to the Editor:

Earlier, In the first Phase, the new Arrival Hall measuring approx. 5500 sqm was put into operation during June, 2010. Subsequently, the Arrival Hall was segregated into International and Domestic area in January, 2011 on completion of the pending works

In the second phase, the domestic security hold area and baggage make up area were expanded and put into operation in June, 2011
