No.AAI/TECH/MM/2020

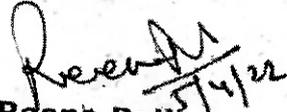

05.04.2022

**MATERIALS MANAGEMENT INSTRUCTION NO.14**

On perusal of technical specification of the tendered item, during CTE inspection of one of the works, certain discrepancies were observed by Technical Examiner, CVC.

In view of the observations made by Technical Examiner, it is enjoined upon all the concerned officials to ensure following :

- 1) In the specification of the tendered item, properties of material shall be clearly spelt out, option of different materials which are non-comparable and having wide difference in their rates, should not be given.
- 2) Specification related to the effect of chemicals, liquids etc. on the material used in the tendered item needs to be mentioned, wherever required.
- 3) Type of construction, quality, safety and other applicable tests shall be specified in the tender document wherever required.
