

AIRPORTS AUTHORITY OF INDIA

Press Release

New ATC tower at Kolkata Airport□

New Delhi- 13th, February, 2013

Hon'ble President of India while inaugurating new Inregrated Terminal Building at Kolkata on 20th January, 2013 apprecited Airports Authority of Inbida for providing world class facilties and articulated that.

“New Kolkata airport terminal is an example of how the Public Sector can also create a world Class facility”.

Airports Authority of India keeps on upgrading airports for providing latest state-of –the –art facilities to the air travelere & Airlines operasting from various airports across the nation. This is an ongoing process in Airports Authority of India.

Recently Airports Authority of India have sanctioned the construction of new Air traffic Control(ATC) Tower at a total cost of Rs. 240 crores at Kolkata Airport. The height of this tower would be around 86- meters . The new ATC tower has become more essential as some areas of Apron and taxiway of airports's new Integrated Passenger Terminal building are out of tower's visual coverage. This facility would enable traffic controllers to have 360 degree view of the operational are(both the city and air side).
