

Airports Authority of India showcases the future of Aviation at the 44th India International Trade Fair 2025

New Delhi, 14th November 2025: The Airports Authority of India took flight into the 44th India International Trade Fair 2025 at Bharat Mandapam, Pragati Maidan, unveiling an innovative and visually stunning pavilion that embodies the event's spirit of "Ek Bharat, Shrestha Bharat." The AAI stall marked the beginning of an immersive experience that highlights India's aviation excellence, technological innovation, and vision for sustainable growth.

Located in Hall 1G, the AAI pavilion greets visitors through a spectacular LED archway, illuminated with futuristic aviation graphics that set the tone for an inspiring journey through India's evolving skies. Inside, the space unfolds into a world of technology and creativity featuring two anamorphic display walls that dynamically illustrate AAI's expanding network, airport infrastructure and modernization milestones across the nation.

A series of interactive touch kiosks invites visitors to explore AAI's flagship initiatives, including the UDAN Scheme, Startup Policy, AAI - Routes Asia 2025 and India's Air Connectivity Map. A digital flip book creatively showcases airports as architectural marvels, inherently promoting the local heritage of the region.

To make the experience even more engaging, AAI has introduced an "Air Quiz" for aviation enthusiasts and an AI-powered 'Selfie Zone' where visitors can transform into digital avatars of aviation professionals, from pilots and ATC officers to air hostesses and fire tender personnel. A dedicated Briefing Zone further enriches the experience for students and media representatives, offering insightful sessions on AAI's initiatives, operations and vision for the future of Indian aviation.

The showstopper of the stall is the Live ATC Demonstration, offering visitors a rare window into real-time air traffic communication and control. As the premier organization steering India's civil aviation growth, AAI continues to lead with innovation and purpose. From developing world-class airports to managing air traffic and ensuring seamless navigation and surveillance, AAI remains at the forefront of shaping a modern, safe and connected India.

Through its participation at IITF 2025, being held from 14th to 27th November, AAI is showcasing its commitment to integrating technology, innovation and sustainability in its operations. The exhibit mirrors the organisation's vision of contributing to the national goal of building a Viksit Bharat @2047, where aviation serves as a cornerstone of progress, connectivity and economic empowerment.
