#### **Airports Authority of India launches SKYBOOKS360-an integrated E-Business Solution for Airport Operators**

**New Delhi, 29<sup>th</sup> June, 2018:** After the successful launch of its system SKYREV360-a comprehensive e-business solution for data gathering, invoicing and collection under Make in India initiative last year, which has already created a buzz world-wide, Airports Authority of India has now come out with yet another innovative concept “SKYBOOKS360” which is an integrated e-Business solution for Airport Operators.

SKYBOOKS360 was launched by Dr. Guruprasad Mohapatra, Chairman, AAI in the presence of Sh. S. Suresh, Board Member Finance and other senior officials from AAI on 28<sup>th</sup> June, 2018. Speaking on the occasion, Chairman AAI reiterated AAI is playing stellar role in Indian Aviation by bringing yet another cutting edge technology SKYBOOKS360 which will meet all business management requirement using a single platform for smaller airport operators not only in India but globally too. This system will help State Governments in managing the small airports going live for Regional Connectivity Scheme -UDAN in an efficient and a professional manner.

Briefing about SKYBOOKS360, Sh. S. Suresh, Member (Finance), AAI explained that it automates the business workflows and lets Airport Operator build layers of functionalities to support the most unique business models. Equipped with Financial accounting reports, Cash Flow Reports, Pay Roll, CPF Accounting, Security Passes, Stock Management System, Budgeting, Payroll, Income Tax Module, GST Reports, Imprest Management, Engineering, Bank Reconciliation, Cash Flow and other needs customized to run Airport business flawlessly. SKYBOOKS360 is a customized Enterprise resource planning (ERP) system for small airports.
