**Attachments:** IMG\_20211013\_171013110.jpg

Sir,

Kindly refer the trailing mail, our submission is

1. Due to space constraints in terminal building, simultaneous international and domestic operations is not possible. For segregating international and domestic passengers, slot for international operations can only be approved during late night hours after completion of domestic movement. (CHQ Letter is attached for reference).
2. International operations were being accommodated during limited night hours only in the Pre-Covid times i.e. after 3 hours of completion of domestic flight operations (presently domestic operations complete by 2140 IST assuming there is no delay and normal watch hours are up to 2210 IST).
3. The implementation of Covid protocols and Health checks/Covid testing by Surat Municipal corporation to screen the incoming passengers has resulted in more space crunch even during domestic flight operations.
4. The pre COVID slots for Air India Express (Sharjah Surat Sharjah, Frequency 2357, Timings 2345/0045 IST) has been already approved.
5. The requested slots for International flight by Air India at Surat are falling before 2210 IST and are clashing with domestic flight operations hence cannot be accommodated. However if the slot timings are adjusted between 0001 to 0500 Hrs.. (arrival and departure) then the International flight by Air India can be accommodated.
6. In pre-COVID times, 24 hour Operations were being managed with manpower of 13 ATCOs (including ATS In-charge) as the ATCOs were doing extra duties to ensure smooth operations, But at present, due to DGCA WDTL compliance and associated penalties in view of its violation, it is not feasible to resume late night international operations with available ATC manpower.
7. Due to extension of Apron and construction of PTT, one aircraft parking stand is already under NOTAM, reducing the available number of Parking stands (Code C) to just four only.
8. Ongoing Terminal building Expansion project has already affected the important amenities for passengers such reduction in Vehicle parking space, Omission of Arrival and Departure lane segregation etc.

**Note-** Further as compared to other neighbouring airports the increase in air traffic is considerably high at Surat Airport. (September 21 Passengers Count- 80,000 Approx.)

**Sent:** 13 October 2021 17:44  
**To:** Airport Director Surat  
**Subject:** Re: FW: SCR-W21-AAI (STV/IDR-SHJ OPS)

Madam,

With reference to trailing mail it is submitted that, at present international operation is being accomodated during night time only i.e. after the completion of domestic flight operations which completes by 2210 IST.

The space in the terminal building is already limited and amid covid protocol followed by Surat Municipal corporation to screen the incoming passengers, station is facing space crunches during flight operation.

The slot for Air India Express (Sharjah Surat Sharjah, Freq 2357, Timings 2345/0045 IST has been already approved as it is operating after 2210 IST.

However, the requested slots for International flight by Air India at Surat are falling before 2210 IST and may clash with domestic flight operation hence could not be accomodated.

The International flight by Air India can be accomodated if the slot timings are adjusted beyond 2210 IST.

International operation flight letter issued by CHQ is also attached for reference.

Submitted please.

R/Sir,

Please refer trailing email regarding the additional International movement by Air India in night approved by International Slot without approval from ATS In-charge side.

With this slot approval, the International flight operation frequency in night has increased to 5 nights in a week, which is absolutely impossible with the current ATC Manpower at Surat and the reason of this has been already informed time and again.

This is for your kind information and necessary action please.
