

भारतीय विमानपत्तन प्राधिकरण  
AIRPORTS AUTHORITY OF INDIA

Circular

File No. AAI/CHQ/ITD/CPPP/RA/ 36.

Date: 23.02.2017

Sub : Changing over to NIC CPP Portal etenders.gov.in

As per the instructions from competent Authority, E-tendering application in AAI is being switched-over from E-TAPS to NIC CPPP E-Tendering portal at etenders.gov.in. All departments shall start publishing tenders on the given portal with effect from the dates given below. Necessary two days training programme on e-procurement portal has already been conducted at all Regions, covering all Airports.

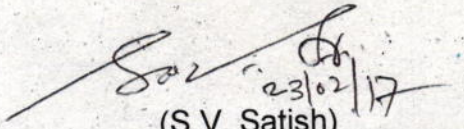

CHQ-	With immediate effect
RHQ NR-	With effect from 06/03/2017
Other Regions-	With effect from 20/03/2017

Necessary guidelines for reverse and forward auctions shall be issued shortly after approval from competent authority. Till then, it is proposed to publish tenders with a clause on the reverse auction where required, that related guidelines on reverse auction shall be provided separately.

Presently, there is no provision of Online EMD/Tender Fees payment and refund in the current portal and it shall be integrated in next few months by NIC. Till such time, all directorates have to follow the process for off-line EMD and Tender Fees.

For User-id creation, IT Co-ordinators in Regions shall be given the role to create users and/or create sub-nodal officers for Airports under their region.

At CHQ, scanned copies of duly filled in user-id forms for user-creation in CPP Portal may please be forwarded to nodalchq@aai.aero. It may please be noted that users created in CPP Portal should have a valid Digital Certificate. In case of renewal of DSC, the old DSC must be retained for e-Tender Portal. Further, Class-III DSC with Signing and Encryption feature are recommended for the purpose in future.
